# RIFF JTAG Error codes and troubleshooting

# ERROR: No response from the RIFF Box.

**ERROR: No response from the RIFF Box.**

Can happen due to numerous of reasons. Mostly it's caused by wrongly configured RTCK/TCK sampling value, or badly connected device. In some cases it can be caused by hardware failure on target device.

**Solutions:**

- Adjust RTCK/TCK sampling to lower value
- Recheck connection
- Check device hardware for problems

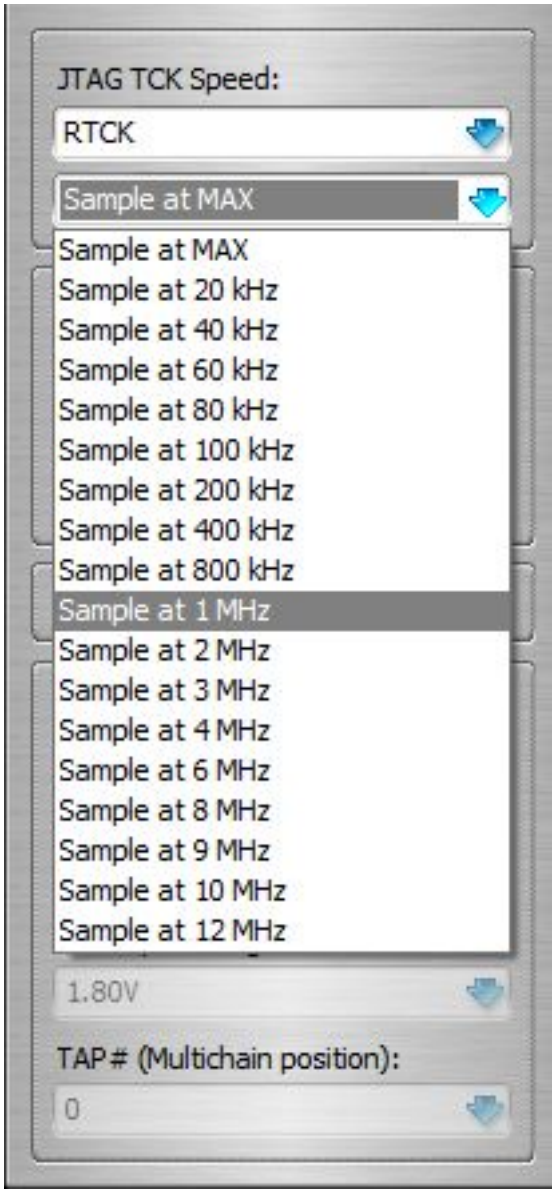

How to set RTCK/TCK :
