RIFF JTAG Error codes and troubleshooting

Detected dead body ID: 0x000000E1 - WRONG!!!

Detected dead body ID: 0x000000E1 - WRONG!!!

This error is returned by JTAG Manager, and can be caused by bad connection and low device power.

Solution is to check all JTAG signals connections carefully and provide sufficient power to target device.

Unique solution ID: #1050
